

# RUBY LUGDUNUM

## JUNE 20th, 2013

### Meet Ruby international community in Lyon

We are really proud to announce the **3rd Ruby Lugdunum conference**. Get to know Ruby Lugdunum, aka RuLu, already well known recipe: best talks of the moment (in English), perpetual hacking, awesome party, great atmosphere, long enjoyable networking breaks and lovely venues.

**On Thursday June 20th** 200 Attendees will enjoy a whole day of single-track sessions, meet each others during lunch and regular breaks, and enjoy a great party at night. They come from multiple background (developers, designers, entrepreneurs, hackers) from France, Europe and other countries, but always share the same passion for Ruby. Some of them will even look for a new job!

On the day after Wednesday June 21st, we will have workshops hosted by the developers of the most influential projects in the Ruby community and our sponsors.

*Get involved, you want Ruby developers to associate your brand to one of the most magical experience they ever had in a French Ruby conference!*
